

Piano Technician Workload Survey 2024

Publisher: Piano Technicians Research Panel

Published: 2024-06-30

Method: mail survey of 1,200 piano technicians nationwide, 2024

Region: Japan

Period: 2024

Key findings:

Average workload: 1.5 tunings per technician per day (range 1.0 - 2.0).

Annual working days: 200 days per year (range 180 - 220).

Full-time technicians report about 600 tunings per year,
while part-time technicians report about 150 tunings per year.
